TOOLS FOR UPHOLSTERERS, AUTO TRIMMERS AWNING AND CANVAS WORKERS

Since 1826, the Osborne family has dedicated itself to providing the very finest tools. Ably assisted by employees who average over ten years of service to the company, the seventh generation of the Osborne family still manages the firm and continues the tradition requiring strict adherence to the highest standards of quality and service. This dedication continues to put the best possible tools in the hands of the professional.

OUR PRODUCTS

Osborne tools are sold through distributors.

All orders are accepted on the basis of price in effect at time of shipment.

GUARANTEE

We will replace, free of charge, any tool which may prove unsatisfactory in performance if sent for inspection, transportation prepaid. Tools which are known to have given reasonable service, or have been misused, or damaged, will not be considered defective.

All orders are accepted on the basis of price in effect at time of shipment

OSBORNE

TOOLS

**THE GOLD MEDALS SHOWN ABOVE SYMBOLIZE THE PRIDE
TAKEN IN OUR TOOLS BY SEVEN GENERATIONS OF
OSBORNES**

Osborne magnetic hammers will give long service if properly used and stored. The magnetic end must be used only for setting a tack in place. The striking end is for driving tacks home. The magnetic head should never be left in contact with other steel objects. Should one of our hammers lose its magnetism, we will recharge free or charge it if sent prepaid to the factory.

7 OZ. HEAD BRONZE MAGNETIC HAMMER

Osborne No. 33

Solid head of bright bronze. Steel tipped at one end for permanent magnet and at the other for hammering. Balanced design, shellacked hardwood handle.

Length of head (inches)	Weight of head (oz)	Magnetic face (inches)	Large face (inches)	Weight ea (oz)	UPC No.
5 1/2	7	1/4	7/16	11	56042

9 OZ. HEAD BRONZE MAGNETIC HAMMER

Osborne No. 39

This hammer is similar to our popular No.33 magnetic hammer but a little heavier.

Length of head (inches)	Weight of head (oz)	Magnetic face (inches)	Large face (inches)	Weight ea (oz)	UPC No.
5 1/2	9	5/16	7/16	13	56052

12 OZ. HEAD HAMMER

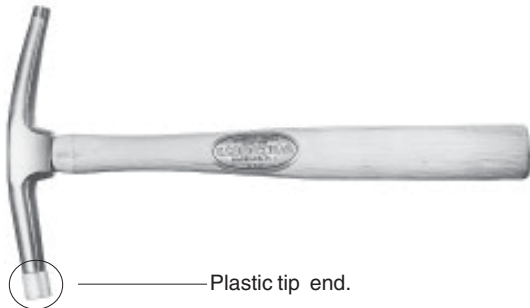

Osborne No. 175-M

This is the heaviest hammer with a hickory handle and bronze head.

Length of head (inches)	Weight of head (oz)	Magnetic face (inches)	Large face (inches)	Weight ea (oz)	UPC No.
6 1/4	12	5/16	7/16	15	56062

NYLON TIP MAGNETIC HAMMER FOR DECORATIVE NAILS

Osborne No. 36

This hammer is similar to our popular No. 33 magnetic hammer but the large face is fitted with a nylon tip. This prevents damage to ornamental nails.

Length of head (inches)	Weight of head (oz)	Magnetic face (inches)	Large face (inches)	Weight ea (oz)	UPC No.
5 1/2	6	1/4	7/16	11	56072

Nylon tips also available separately. **Part No. 36-T UPC No. 56076**

REPLACEMENT HANDLES

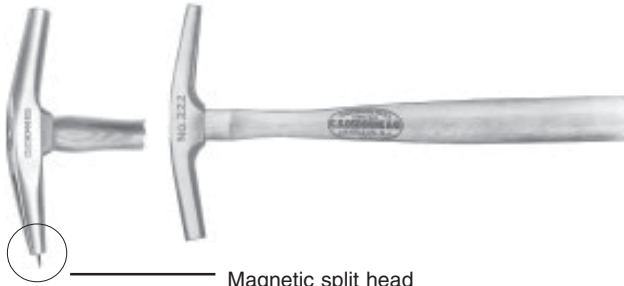

Osborne No. 33-H

Replacement handles for above hammers: 33, 36, 39 and 175-M. UPC No. 56046. Wedge included

MAGNETIC UPHOLSTERERS' HAMMER BALANCED

Magnetic split head

Osborne No. 222

Forged steel. Fully polished split head. Hickory handle. A versatile hammer used in many leather trades. Made to U.S. Government specifications.

Length of head (inches)	Weight of head (oz)	Magnetic face (inches)	Large face (inches)	Weight ea (oz)	UPC No.
5 1/2	7	5/16	9/16	13	56012

Osborne No. 222-S

This hammer is the same as the 222 except it has an extra small 1/4 inch face. If this small size is wanted, specify No. 222-S. All other dimensions are the same. UPC No. 56018.

Osborne No. 222-H

Replacement handles also available. UPC No. 56016.

LIGHT MAGNETIC UPHOLSTERS' HAMMER

Osborne No. 111

Forged steel. This hammer is similar to No. 222 but has a lighter weight head.

Length of head (inches)	Weight of head (oz)	Magnetic face (inches)	Large face (inches)	Weight ea (oz)	UPC No.
5 1/4	6	5/16	9/16	7	56022

MAGNETIC TACK HAMMERS

Popular weights and sizes for window trimmers, upholsters and house hold use. Forged from our special tool steel, carefully tempered. Fully polished head.

Osborne No.	Length of head (in)	Weight of head (oz)	Magnetic face (in)	Overall length (in)	Weight ea (oz)	UPC No.
236	3 1/2	4	1/4	11	6	56032
237	4 1/8	5	1/4	11	7	56034
238	4 3/8	7	5/16	10 1/2	11	56036

MAGNETIC NAIL & TACK PLACER

Osborne No. 631

A superior quality nail or tack holder. The 5/8 octagon shank is made of stainless steel with a powerful permanent alnico magnet inserted in the tip. Can be used to set tacks in a tight place.

Size No.	Over length (inches)	Diameter of face (inches)	Weight (oz)	Weight each (oz)	UPC No.
5 1/2	5 1/2	3/8	8	4	56082
8	8	5/8	12	4	56084

RIPPING HAMMER

Osborne No. 277 1/2

Forged tool steel, balanced and tough. Double edged at right angles for stripping off old fabric. A favorite with upholsters.

Length of head (inches)	Width of bits (inches)	Weight ea (lbs)	UPC No.
5	13/16	1 1/4	56162

TACK HAMMER

Osborne No. 1035

Original upholsterer hammer. Forged steel head hardened and polished. Hickory hardwood handle with head end in round shape. Different sizes available. The magnet is inserted in the face. Finishing handle.

Size	Length of head (mm) - (inches)	Weight of head (oz)	Magnetic face (mm)& (inches)	Overall length (mm)&(inches)	Weight ea (oz)	UPC No.
8	135 - 5-1/2	11	8 - 5/16	300 - 12	13	70006
9	135 - 5-1/2	11	9 - 3/8	300 - 12	14	70008
10	135 - 5-1/2	12	10 - 7/16	300 - 12	14	70000

MAGNETIC TACK HAMMER

Osborne No. 1035 M

Same as above but with magnetic split round end. Also three different sizes available.

Size	Length of head (mm) - (inches)	Weight of head (oz)	Magnetic face (mm)& (inches)	Overall length (mm)&(inches)	Weight ea (oz)	UPC No.
8M	135 - 5-1/2	11	8 - 5/16	300 - 12	13	64532
9M	135 - 5-1/2	11	9 - 3/8	300 - 12	14	64546
10M	135 - 5-1/2	12	10 - 7/16	300 - 12	14	64530

TACK HAMMER

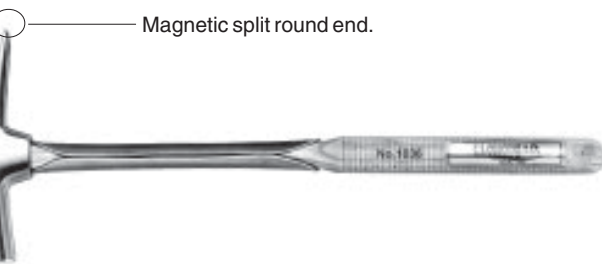

Osborne No. 1036

Upholstery hammer with spring stabilized. Hardwood handle. Forged steel head hardened and polished. Hammer end in different round sizes. Also the length of the head is smaller than above hammer.

3	4 1/2	5/8	9	14	56092
4	4 3/4	3/4	12	16	56094

STAPLE LIFTER

Osborne No. 120 1/2

The correct angle for removing staples of any size, from the smallest to the long leg staples and shredded material. Manufactured from top grade steel. Electronically hardened working ends. Easy to grip, plastic handle. This is a very popular model. Not recommended for pulling out tacks.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
4 1/2	6 1/2	4	64006

STAPLE REMOVER

Osborne No. 124

Forged from 4140 alloy tempered steel. A consistently made Osborne quality product. Carefully hardened for lasting use.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
2 1/4	6	4	64014

STAPLE KNOCKER

Osborne No. 120

Staple knocker for removing staples and shredded material. Manufactured from top grade steel. Electronically hardened working ends. Easy to grip plastic handle. Used with Osborne hickory or rawhide mallets.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
4 1/2	6 1/2	4	64004

TACK AND STAPLE REMOVER

Osborne No. 121

This staple and tack remover is constructed with the same honest craftsmanship that goes into all Osborne tools. Can be also used for grooving out drawers so that when reglued they will stick. Made of forged steel with wooden handle.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
2 1/4	6 1/2	2	64010

CLAW TOOL

Osborne No. 200

Narrow at the point to get under heads of ornamental nails and tacks without harming fabric or wood. A popular upholsterer's tool.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
3 1/4	7 1/2	3	64220

STAPLE AND TACK CLAW

Osborne No. 201

A good quality drop forged tack claw. Pointed ends are hardened and tempered to prevent breakage. Similar to 202 but with traditional wooden handle. Flat base.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
2 1/2	7	4	64224

OSBORNE QUALITY STAPLE/TACK REMOVERS

PLASTIC AND TACK CLAW

Osborne No. 202

A quality drop forged tack claw. Ends are hardened and tempered to prevent breakage. Similar to 201 but with rugged plastic handle for heavier use and more leverage.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
2 3/4	6 3/4	4	64226

CLAW TOOL

Osborne No. 122

This claw is especially designed for lifting tacks and small nails. Drop forged steel blade and hardwood handle.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
2 7/8	7 1/4	3	64204

CLAW TOOL

Osborne No. 123 1/2

Boss claw tool. Drop forged blade with 1/2 inch diameter shank. Amber plastic handle. Very sturdy.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
2 5/8	7	6	64210

STAPLE LIFTER

Osborne No. 763

Forged steel nickel plated with comfortable plastic red handle. Designed to dig down and to remove staples quickly.

Blade length	Overall length	Weight ea (oz)	UPC No.
70mm-2-1/4"	170mm-6-1/2"	4	64784

CLAW TOOL

Osborne No. 761/1

The ideal tool for pulling tacks or nails. Forged steel blade, nickel plated. Hardwood pear shaped handle.

Blade length	Overall length	Weight ea (oz)	UPC No.
85mm- 3-1/2"	200mm- 4-1/4"	4	64780

CLAW TOOL

Osborne No. 761 A

Similar to our above claw tool 761/1 but longer.

Blade length	Overall length	Weight ea (oz)	UPC No.
110mm- 4-3/8"	220mm- 8-3/4"	6	64769

CLAW TOOL

Osborne No. 761 B

Similar to our 761 A but with reinforced striking end on the handle.

Blade length	Overall length	Weight ea (oz)	UPC No.
110mm- 4-3/8"	230mm- 9-1/8"	6	64770

CLAW TOOL

Osborne No. 761 P

Similar to our 761 A but with a shiny strong plastic handle.

Blade length	Overall length	Weight ea (oz)	UPC No.
110mm- 4-3/8"	220mm- 8-3/4"	6	64774

REPLACEMENT HANDLES

761 HN

761 HL

Osborne No. 761 HN

Replacement handle for our popular 761 B. Hardwood with reinforced striking end.

Osborne No. 761 HL

Replacement handle for our popular 761W 1/2. Hardwood with reinforced striking end.

Osborne No.	Overall length	Weight ea (oz)	UPC No.
761 HN	120MM 4-3/4"	2	64771
761 HL	125mm 5"	2	64773

CARDED TACK CLAW

Osborne No. 146

Drop forged 1/2 " tempered steel blades. Polished black plastic handle. Carded on yellow background 8-1/2" x 3-1/2". Clear plastic wrapped.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
3 7/8	6 5/8	3	64216

STAPLE LIFTER

Osborne No. 1066

Polished and forged steel blade. Hardwood handle. A European favorite.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
3 5/8	8	3	64018

BENT RIPPING CHISEL

Osborne No. 339

Rugged tool. Carefully hardened.

Cutting edge (inches)	Stock (inches)	Length (inches)	Weight each (lbs) (oz)	UPC No.
1 5/8	7/8	18	2 6	53182

MOULDING LIFTER

Osborne No. 262

Forged from high quality hexagon tool steel. Hardened and tempered. Fully nickel plated. Individually boxed.

Length (inches)	Stock (inches)	Weight ea (oz)	UPC No.
10 1/2	1/2	14	14292

RIPPING CHISEL

Osborne No. 402

A translucent amber handle for quick identification. Perfect balance. Forged steel blade with correct angle on chisel edge. Shouldered tang, tough construction.

Overall Length (inches)	Width of edge (inches)	Weight ea (oz)	UPC No.
8-3/4	9/16	7	53212

BENT RIPPING CHISEL

Osborne No. 761W 1/2

Forged steel blade. Hardwood handle with reinforced striking end bent at the correct angle. Nickel plated.

Blade length	Overall length	Weight ea (oz)	UPC No.
125mm- 5"	245mm-9-3/4"	6	64767

BENT RIPPING CHISEL

Osborne No. 761PH 1/2

Similar to our 761W 1/2 but with durable plastic handle ideal for stronger work.

Blade length	Overall length	Weight ea (oz)	UPC No.
125mm- 5"	245mm-9-3/4"	6	64776

BENT RIPPING CHISEL

Osborne No. 761W 3/4

Similar to our 761W 1/2 but with claw in blade.

Blade length	Overall length	Weight ea (oz)	UPC No.
125mm- 5"	245mm-9-3/4"	6	64768

BENT RIPPING CHISEL

Osborne No. 761PH 3/4

Similar to our 761W 3/4 but with durable plastic handle ideal for stronger work.

Blade length	Overall length	Weight ea (oz)	UPC No.
125mm- 5"	235mm-9-5/8"	6	64778

STRAIGHT RIPPING CHISEL

Osborne No. 762 P

Straight ripping chisel. Forged steel blade. Nickel plated with strong plastic handle for better use.

Blade length	Overall length	Weight ea (oz)	UPC No.
125mm-5"	230mm-9-1/8"	5	64782

COMBINATION TOOL

Osborne No. 402 1/2

A beautifully finished tool with a translucent amber handle designed to fit the hand with perfect balance. Forged highly polished steel blade. Shouldered tang to prevent driving into handle. Combined ripping tool and tack puller.

Blade length (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
3 3/4	8 1/4	6	53216

PINCERS, FLUSH CUT

Osborne No. 93

A rugged forged steel pincer for heavy ripping. Polished flush cut jaws for getting close to a flat surface.

Length (inches)	Weight ea (oz)	UPC No.
8	13	54112

END CUTTING NIPPER

Osborne No. 94

An excellent small nipper. Made of drop forged steel. Black finish, polished jaws. Flush cut.

Length (inches)	Weight ea (oz)	UPC No.
6 3/8	7	54122

DIAGONAL CUTTING NIPPERS

Osborne No. 91

These rugged drop forged nippers are ideal for cutting hog rings and wire. Polished head, black handles, finest industrial quality. Red plastic grips.

Length (inches)	Weight ea (oz)	UPC No.
7 3/8	9	54082

DIAGONAL CUTTING NIPPERS

Button Chart - Actual size.

What is Required to Cover Buttons??

FIRST, A Button Covering and Cutting Machine (see below).
 SECOND, Steel Cutters and Covering Dies(see page 29-30). A separate set of dies is required to make each size of button to get a perfect finished of quality. Always use the correct top die for your material.
 THIRD, Buttons Molds (see page 36). A complete mold necessary to make a button consists of a shell and a back. The shell is covered and crimped around the back by the die. Always use the correct shell for your material.

CHART OF BUTTON SIZES

The standard measurement for buttons is 40 lignes per inch. Therefore size 30 is 3/4", size 60 is 1-1/2", etc. Dimensions shown are for buttons before covering.

No.1 HAND BUTTON COVERING MACHINE

Osborne No. W-1

High quality hand machine. Cuts fabric and covers buttons. Use 2 pcs. Die and short cutters. The No. 1 Button machine has a reinforced frame and handle. Bolts to a table for added stability. Comes complete with a wood block for cutting covers. It produce 80 to 120 buttons per hour. Also used to set snaps, grommets and ventilators. Wood block and dowel can be also purchased separately.
 Dies for setting snaps ,grommets, ventilators are also available.

W-2H	Handle for Machine	75018

BUTTON DIES

All dies are precision machined, nickel plated and made of high quality steel. Cutters are heat treated and have sharp edges engineered for accurate cutting and long life.

TYPE AND SIZE: The Button Machine No.1 uses 2 pcs. The No. 2 uses 3 pcs. Dies.

MATERIAL THICKNESS. Always buy a set of dies made exactly for your material thickness. If you have a variety of material thickness, you will need more than one set of dies. Trying to cover very thin and very thick material with the same set of dies will result in poor quality buttons. If you are not sure what dies to buy, send us a sample of your material and we will assist you in the proper selection.

Description	Die Designation
Light Material	LU
Regular Material	HU
Heavy Material	HUX

TO SELECT THE PROPER DIE USE THIS TABLE

DIE WITH CUTTER SETS.

Sets of Dies with Cutters are most popular. Sets are available for W-1 Button machine, which uses the 2 piece dies with short cutter, and for W-1, which uses 3 piece dies with long cutter. When you order, make sure to specify the type of material : HU, HUX or LU, depending on thickness of the material to be used. Following are the part numbers for "HU" dies with cutter for W-1 and W-2 Button Machines.

2 PIECE DIE & CUTTER SET

USED WITH W-1 BUTTON COVERING MACHINE

2 PCS. DIE "HU" AND CUTTER FOR W-1 (ALSO AVAILABLE IN "LU" AND "HUX")

Osborne No.	Description	UPC No.
WDIV1	1" ventilator die for W-1	76292
WDIV1S	3/4" Ventilator die for W-1	76300
WDIV2	1" Ventilator die for W-2	76304

WIRE EYE BUTTONS BACKS ONLY

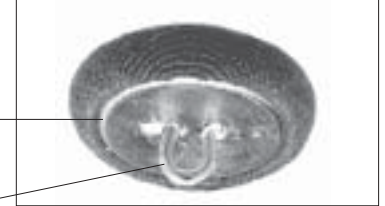

High quality buttons backs also called Wire Eye. Two styles available: No. 9 and No. 44. Wire eye No. 9 Standard has a heavy eye and will withstand a heavy pullout test. The No. 44 has a smaller eye and is intended to be used against delicate material to minimize piercing and runs.

9

Strong wire eye.
Large opening for ease of threading tufting twine.

Uniform Dimensions.
Smooth edges help avoid cutting even the most difficult materials.
Perfectly rounded loop won't fray twine.

44

The wire eye is a little smaller, and specially designed to prevent fabric damage and pull through in delicate materials.

No. 9 WIRE EYE BUTTON BACK ONLY 5 GROSS BOX (ALSO AVAILABLE IN 1, 25 AND 50 GROSS BOXES).

Osborne No.	VWVE229-5	VWVE249-5	VWVE309-5	VWV369-5	VWVE409-5	VWVE459-5	VWVE509-5	VWVE609-5

SHELLS

High quality Shells which are the top part of button. We offer four kinds of shells: ALUMINUM Shells, RUST RESISTANT Shells, REGULAR Shells and BLACK SOFT Shells. Black Soft Shells are the most popular since they prevent tearing of the materials. Rust Resistant Shells minimize rusting problems and the resultant damage to the upholstery. We sell shells in four quantities: 1, 5, 25 and 50 gross boxes. The most popular quantity is 5 gross box. Please specify when ordering; if not we will ship 5 gross boxes.

Black Soft Shell

Rust Proof Shell

Aluminum Shell

Regular Shell

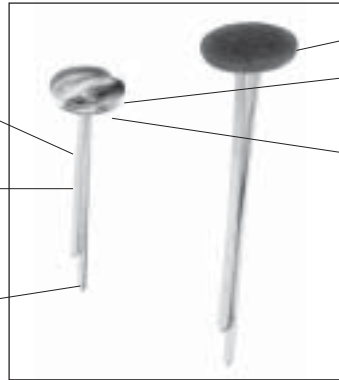

PRONG

Also known as Clinch Buttons. Great for high speed production. Used on headboards, bars, restaurant booths and wide range of furniture styles. Very effective for pre-tufting of covers before attachment to the furniture frame.

Round edge helps prevent holes from enlarging after application.

Wire is precision tempered. Just the right hardness to keep prongs from pulling out, yet easy for your installer to bend.

Leg is longer for ease of bending.

Shell with material

Staked edges are rounded to prevent material from tearing.

Prong wire is solidly staked to collet for safety and ease of installation.

PRONGS FIVE GROSS BOX (ALSO AVAILABLE IN 1, 25 AND 50 GROSS BOX).

Metal 1"
No. 1 Washer
Beveled for additional strength.

Metal 1 3/8"
No. 3 Washer
Extra wide, more holding area.

(PLEASE CHANGE LAST NUMBER TO SPECIFY QUANTITY WHEN ORDERING 1, 25 OR 50 GROSS).

Metal 5/16"x7/8"
No. 10 Spring Metal Washer
For use with threaded nails. Perfect for working near edges or corners.

Metal 15/16
No. 15 Spring Washer
Precision tempered springs steel.

Fibre 1 3/8"
No. 5 Washer
Fibre Washer is strong and squeak proof

THREADED NAILS (For use with Spring Washer)

Nail is rigidly welded to no dent collet.

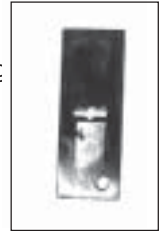

Deep threads are designed so washer slides on easy, yet can't pull off.

When anchored with a spring lock washer, the Threaded Nail is a fast, positive, alternative to prong tufting. Just insert the nail through the upholstered construction and fasten in on the back with a spring washer.

Threaded nail & Spring washer

Please specify quantity when ordering.

* Also available in 5, 25 and 50 Gross Boxes.

Please specify quantity when ordering.

PLASTIC DOMED BUTTON

Ready to use button.No. 40 available only. Made of Nylon one piece construction. Available in: dark brown, beige and white.

PLASTIC DOMED 5 GROSS PACK			
Osborne No.	WPLDBB-5	WPLDBB-5	WPLDBW-5
Description	Beige Plastic Domed	Dark Brown Plastic Domed	White Plastic Domed

* Also available in 1 and 25 Gross Boxes.

PLASTIC SUPER HOOK, PATENTED

Applicable on : reversible cushions, nonreversible cushions, tight seats, chair backs, bolsters, hassocks, etc. Fast installation, low cost, perfect tufting depth every time. Knots won't come untied due to operator fatigue. Loops and super clips are pre-measured, ready-to-use.

1. BUTTON SITS FLAT

Tapered shank allow button to sit flat.

2. INSTALLS FASTER

Exclusive slope design guides loop into hook with one pass. Cuts production time, cuts costs.

3. WON'T RIDE UP

Curved double snubbers keep loop from riding up into lock channels.

4. NO FRAYING

Smooth edges will not fray twine.

5. EXTRA HOLDING POWER

Ribbed nylon exerts additional pressure to hold finished buttons together.

6. IT'S STRONGER

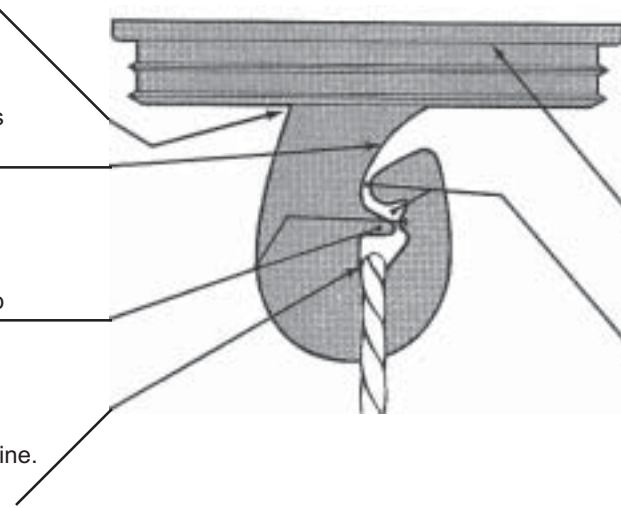

Extra high impact nylon, solid one-piece, for added strength.

7. HOLDS TIGHTER

Grooved rim helps hold material and shell tight to the collet. Great for vinyl. Puts the stop on popoffs.

8. WON'T WORK LOOSE

Double lock channels further restrict loop from ever ridding up.

PLASTIC SUPERHOOK 5 GROSS BOX(also in 1, 25 & 50 gr. box).				
Osborne No.	WPSH22-5	WPSH30-5	WPSH36-5	WPSH45-5
Size	22	30	36	45

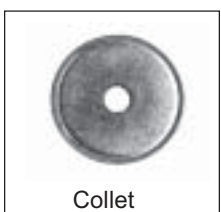

POLY WASHER FOR SUPER HOOK

Made of fibre. Ideal washer for super hook buttons. It has one inch diameter. Great holding power. Available in 1, 25 and 50 gross box.

POLY WASHER FOR SUPERHOOK		
Osborne No.	WWAP138-5	WWAP138-50
Description	Poly washer for superhook	

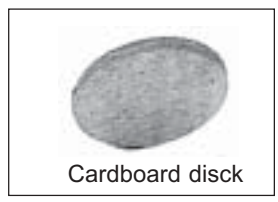

UNASSEMBLED NAIL OR TACK MOLD

ADVANTAGES: Costs, less than a pre-assembled nail, used with special tacks or nails. Your supply the nail or tack of your choice.

COVERING OPERATION: Collet (button back) is placed in die. Nail (or tack) is inserted through hole in collect. Cardboard Wad is place on top of the nail. Covering is then completed in the usual manner.

COLLETS 5 GROSS BOX (ALSO AVAILABLE IN 1, 25 & 50 GR. BOX).					
Osborne No.	WCO22-5	WCO30-5	WCO36-5	WCO40-5	WCO45-5

SAME BUTTON SIZE AND QUANTITIES ALSO AVAILABLE WITH ALUMINUM SHELLS, REGULAR SHELLS AND RUST RESISTENT SHELLS. PLEASE SPECIFY TYPE AND SIZE WHEN ORDERING.

TUFTING NEEDLE & CLASPS

Osborne No. 417 & 418

THE VERY BEST. Does not catch when it is withdrawn. After threading button, end of needle is loaded with clasps. As needle reaches maximum depth, clasp is rejected. Saves time and labor. No need to remove the outside back of piece being tufted. A splendid tool to the true craftsperson.

Working Process:

- 1.- At the start assemble on the thread the corresponding quantity of clasps for the required number of stitches. Insert clasp with thread in the hollow of the needle.
- 2.- Push needle (with inserted clasps and thread) through upholstery fabric, press head of needle. Clasp with thread will be ejected.
- 3.- Pull needle out and tighten thread, clasp will be anchored inside.

Instructions are included with the tool.

3	2 1/2	4 1/2	14	24	61164

WHITE RUBBER MALLET

Osborne No. 396

No. 396 extra heavy white rubber mallet will not mar surface. Superior quality. Finest on the market. Limited bounce. White hardwood handle. Handles only are also sold separately.

Size No.	Diameter of face (inches)	Length of head (inches)	Overall length (inches)	Weight ea (oz)	UPC No.
2	2	3 1/4	12	13	61142
3	2 1/2	4 1/2	14	28	61146

These punches should be used on a wood or plastic cutting block or the Osborne No. #603 Cutting pad. The use of a wooden or rawhide mallet is recommended. Steel hammers are not recommended.

ARCH PUNCH - Original and correctly designed for cutting

Osborne No. 149

Osborne arch punches are drop forged in one piece from the finest special carbon steel in sizes from 3/16". Larger sizes are made with our properly engineered two piece welded construction. A unique feature of the Osborne arch punch is the inside taper which permits the punching to clear easily through the barrel. Punches have fully polished barrel and black enamel handle.

Meets Government Standards

The cutting edge is fully hardened all the way through and properly finished to provide long use trouble free punching. There is no other Hollow Punch that can compare.

Stock sizes shown below in inches with black enamel finish.

BELT PUNCH SET

Osborne No. K-245

Kit contains the most frequently used sizes.

1 each of following sizes Osborne No. 245 - Belt Punches						
Sizes	2	4	6	9	12	14
Diameter (inches)	1/8	5/32	3/16	1/4	5/16	3/8
Weight per set (oz)	13					
UPC No.	01520					

These punches should be used on a wood or plastic cutting block or the Osborne No. #603 Cutting pad. The use of a wooden or rawhide mallet is recommended. Steel hammers are not recommended.

MINI-PUNCH SET

Osborne No. K-157

A special punch set for cutting small, precise holes in soft materials where throated or plier punches won't reach. Set has a round handle with slot inside to clear punching. Handle is threaded to accommodate the seven replaceable screw tubes sizes which are shown below. See page 4 at bottom for actual sizes of cutting tubes. Set consists of seven tubes and handle.

Tube size No.	0	1	2	3	4	5	6	Weight per set (oz)	UPC No.

SELF-CENTERING PUNCH SET

Osborne No. K-156

This handy and versatile kit contains threaded handle with self-centering pointed plunger. The threaded handle will accommodate nine interchangeable threaded cutting tubes. The punches in this set will cleanly cut leather, rubber, paper, plastics and other soft materials. The self-centering point makes these punches ideal for cutting concentric washers in small quantities by hand. Sizes of punches listed below. All cutting edges properly hardened. The only professional tool like it. Comes in a sturdy plastic box for storage.

OBLONG CUTTING PUNCH

Osborne No. 400

Polished barrel with hardened cutting edge. Hole tapers inside for easy punching clearings. Properly welded.

Size No.	Size (inches)	Weight ea (oz)	UPC No.
1	11/16 x 3/16	5	01644
2	7/8 x 1/4	6	01646

Osborne grommet inserting dies and grommet hole cutters are numbered to correspond with standard size grommets. The dies are guaranteed to set the proper size and style Osborne grommets. Grommet dies and cutters should be used with a rawhide hammer or wooden mallet, not with a steel hammer. We recommend our #395 rawhide hammers for this purpose.

GROMMET INSERTING DIES

Osborne No. 216

Sets plain rim washers and grommets. Sizes 00 through 5 are made from high grade tool steel, while size 6 and up are malleable iron casting. Properly machined and hardened. The finest industrial grommet die made. For best results use only Osborne grommets and washers.

RIVETS / SETTERS

Osborne No. 1700

Copper rivets and burrs. Use with Osborne Nos. 169 & 170.
Packed 1 lb. per box.

No. 170

Choose the setter with a hole diameter slightly larger than the rivet being set. Sizes for #170 correspond with popular 8, 9 and 10 copper rivets. For other size rivets, use table below to determine proper size of #169 Rivet Setter. Push the rivet through the hole then turn the material over. Place burr on rivet, then use the rivet setting tool's straight hole to drive the burr down tight against the material. Cut the rivet off close to the burr with side or end nippers. Do not cut off flush with the burr, but leave about 1/16 of an inch above the burr. The hole on the side of the rivet setter can be used to dislodge any waste that is wedged into the tool. Place the concave recess of setter on the burr. Hold perpendicular and strike the tool forcefully, turning to the left then right as you strike. This spreads the end of the rivet over the burr, simultaneously rounding its end. A few extra blows from the soft faced mallet can be used to flatten the rivet end a bit, if desired.

No. 169

Polished face, black finish, forged steel. Hardened working end.

OSBORNE NEEDLE GAUGES

OSBORNE needles and pins have long been considered a standard for fine quality. Experience and efficiency in the art of needle making for over one hundred and seventy years have produced the dependable tools well known throughout the trade as **OSBORNE NEEDLES AND PINS**.

The uniform quality of these needles and pins is carefully maintained by the consistent efforts of the skillful craftspeople who make them. All are nickel plated. Papers cannot be broken.

Quotation for special needles upon request.

OSBORNE needles are gauged by the Standard Wire Gauge as illustrated opposite. The gauge sizes are also listed in thousandths of an inch and millimeter sizes in thousandths are also shown.

Actual diameter of wire	English gauge	Decimal equiv. (inch)	Decimal equiv. (mm)
	5	.212	5.385
	5 1/2	.202	5.130
	6	.192	4.877
	7	.176	4.470
	7 1/2	.168	4.267
	8	.160	4.064
	9	.144	3.658
	10	.128	3.251
